- 3) To make aware about social changes.
- 4) To study the various agriculture policies.
- 5) To understand the source of rural employments.
- 6) To introduce the rural Tourism in the upliftment of rural life.
- 5) To make the students job ready and enhance their employability.
- 6) To make the students aware of and responsible towards gender, religion, and class equality.
- 7) To enhance critical thinking by making them participate in social activities and imbibe human values among them.
- 8) To encourage the students to participate in research at different levels through projects, interviews, surveys and field visits.

As the students are trained and developed regarding the knowledge of rural development and they will be aware about rural background. The course in general help them for upgradation of rural technology. In order to develop rural areas, education, entrepreneurship, physical infrastructure are crucial.

Rural development is also characterized by its emphasis on locally sourced economic strategies. In contrast to urban areas, which have many similarities, rural areas are highly distinct from each other. Therefore, there are many different rural development approaches around the world. "Rural development" is a very broad concept. Basically, it focuses on actions for the economic development of areas outside the mainstream urban economy.

Certificate Course in Rural Development

Rural development means an action plan for the economic and social upliftment of rural areas. It aims at improving the quality of life of people living in rural areas. It focuses on the action for the development of areas that are lagging behind in the overall development of the rural economy.

Rural development is a dynamic process, which is mainly concerned with the rural areas. These include agricultural growth, putting up of economic and social infrastructure, fair wages as also housing and house sites for the landless, village planning, public health, education and functional literacy, communication etc. Rural development is a national necessity and has considerable importance in India.

Looking at this significant development, college has taken special initiative by establishing course of rural development for the students so that they will aware about the rural background. The tools used for the teaching in the lab are power point presentation which is more benefitted for the students. This method is more useful for the students and easily they grasp the knowledge which are taught very easily.

As the students are of urban background, they hardly have the idea of rural areas. Rural people may have limited access to such resources due to fewer facilities, which can impact the availability of diverse educational opportunities for students. Hence it was essential to frame syllabus easy and the basic components of the syllabus were to provide knowledge about importance, objectives, principles, problems of rural development, to assess the reason behind migration of people, stop the migration of people, impact on rural and urban areas, to impart knowledge about the impact of technology on Rural India, scope, opportunities, suggestions, constraints of rural technology, to gain knowledge about various developmental programmes in India.

AIMS AND OBJECTIVES

1. To provide knowledge about importance, objectives, principles, problems of rural development.
2. To assess the reason behind migration of people, stop the migration of people, impact on rural and urban areas.
3. To impart knowledge about the impact of technology on Rural India, scope, opportunities, suggestions, constraints of rural technology.
4. To gain knowledge about various developmental programmes in India.
