Welcome to ICSTS - 2023

6th International Conference on Recent Advances in Science, Technology, Agriculture, Humanities and Information Science (ICSTS - 2023) which is scheduled to be held from On 29th May 2023 to 2nd June 2023 in Hotel at Hanoi, Vietnam. ICSTS - 2023 will create a global platform to researchers, scientists, academicians, policy makers, industry experts to share experiences, discuss research findings and acquire the desired knowledge in the subject from around the world with many networking opportunities.

The ICSTS International Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations. With its high quality, it provides an exceptional value for students, academics and industry researchers. International Conference on Recent Advances in Science, Technology Agriculture, Humanities and Information Science aims is to spur unique discoveries in terms of countering conventional challenges faced in everyday by humanities, engineering activities and technologies. Technology is progressing at a very fast pace, which currently is weighing heavily on the earth's bounty of natural resources and causing serious damage to the environment. The price for this large-scale and mass expansion in all forms of daily life is being paid for in the form of climate change.

Today, dangerous pollution levels and global environmental degradation endangers the very existence of life on our planet. Now, more than ever, there is an urgent need for professionals from all sectors of engineering and science to come together and work together to find sustainable solutions to sustain economic growth without harming the environment in any way whatsoever. It is unquestionably necessary to devise new strategies and improved technologies that are environmentally self-sustaining. Scientific discoveries and technological innovations to meet the demands of the waste management, energy sector, the manufacturing sector, industrial automation, transportation, and other sectors, must now focus on the ecological footprint. The conference will cover topics from diverse disciplines to bestow their innovative schemes for sustainable growth.

To understand, advance and promote the emerging global trends in Science, Technology, Humanities, Commerce & Management.
