External Academic Audit Report

An academic audit conducted by the Internal Quality Assurance Cell (IQAC) is a comprehensive evaluation of an institution's academic processes aimed at assessing their quality and identifying opportunities for enhancement. This systematic review includes both internal and external evaluations, involving a self-study by the institution and an on-site visit by peer reviewers. The primary objective of the audit is to foster continuous improvement in the quality of academic programs, activities, infrastructure, and support services.

The audit team evaluates several key areas, including:

- **Teaching and Learning:** Development and assessment of learning outcomes, curriculum design, and the teaching-learning process.
- **Research:** Evaluation of the quality and quantity of research outputs over the past three years.
- **Resources:** Assessment of the quality of resources and overall infrastructure.
- **Examinations:** Review of the examination process, including document management and archiving.

The academic audit typically involves the following steps:

- **Document Verification:** Reviewing relevant documents to ensure accuracy and compliance.
- **Recording Observations:** Documenting findings and observations in the audit report.
- **Report Submission:** Presenting the audit report to the Principal of the college.
- **Addressing Lapses:** Communicating identified gaps or lapses to the concerned faculty members for corrective action.

The IQAC operates with the guiding principle of achieving excellence through continuous improvement and active collaboration with all stakeholders.

EXTERNAL ACADEMIC AUDIT REPORT

Based on the information and documents like PBAS, research publications, reports etc. provided by the Internal Quality Assurance Cell (IQAC) and the Principal's Office, Sevalal Mahila Mahavidyalaya, Nagpur the External Academic Audit of the year 2023-24 was conducted. The audit process includes a thorough evaluation of curriculum design, teaching methodologies, student support services, and the quality of research output.

FINDINGS:

1. The findings of the audit are extremely satisfying.
2. The teaching methodologies adopted by the staff members are in accordance with the need and the demand of the contemporary education system.
3. Teachers are highly qualified and use of ICT in teaching and learning process is very encouraging.

RECOMMENDATIONS:

1. Focus should be paid more on research publications. Researchers should publish more and more in journals that are indexed in the UGC-CARE list. Publishing in these journals can help enhance visibility and recognition.
2. Job oriented programmes should be run by the departments.
