Report on Gender Sensitization Activities of the Institution (2016-17 to 2020-2021)

INTRODUCTION:

Gender sensitization is a major issue in Indian Society. It is basically a male dominated society where women are always considered on a secondary place in every field of life. In the ancient Indians scriptures women was given a glorified status. She was an embodiment of *Shakti*. However, Manusmruti made such statement about women which relegated to a position of backwardness and timidity. Her status and respectful position in the society suffered during that time.

Indian constitution has given the equal status to both men and women. Indian society must practice the equality between male and female. Considering this fact the college has organized special workshops, lectures to sensitize the young generation on Gender Discrimination. It is a need that we should arrange programmes on this sensitive topic to reduce the barriers caused due to discrimination and gender bias. The main objectives of gender mainstreaming are equal career opportunities for men and women, Fair distribution of unpaid and paid work among women and men and equality of women and men with regard to political representation and participation. With the prevalence and gender discrimination and social norms and practices girls become exposed to the possibility of child marriage teenage pregnancy, child domestic work, poor education and health sexual abuse exploitation and violence. Many of these manifestations will not change unless girls are valued more.

Hence in order to inculcate these values many Gender sensitization seminar, workshops, Guest lectures of renowned persons were organized. The detailed report about these programs is as follows:

Women's Equality Day :

Gender is the state of equal ease of access to the resources and opportunities regardless of sex. Though India has achieved a great success in every field of life still it has a issue of gender discrimination. To create awareness on this issue Women's Equality Day was celebrated on 1st September, 2018. On this occasion a special lecture of Mrs. Kavita Agarwal, Motivational Speaker, Nagpur was organized. She explained gender equality means that the different behaviour, aspirations and needs of women and men are considered, valued and favoured equally. It does not mean that women and men have to become the same, but that their rights, responsibilities and opportunities will not depend on whether they are born male or female. She told about the rights mentioned in the constitution and discussed how gender equality is intrinsically linked to sustainable development and to the realization of human rights for all. She gave various examples of day to day life and explains how the society behave in a gender biased way. She focused on the family atmosphere where girl is given a secondary place than boy. She also gave very beautiful examples of successful women in society who grow beyond this biased thinking. She asked the students to believe in themselves and also to work hard to make their own place in this world. Total 65 students attended the lecture.
