# Comprehensive Report on 'Save Birds Save Nature' Project

Academic Session 2017-18 to 2021-22

## INTRODUCTION :

The world is pacing up rapidly towards economic, social, cultural, industrial, technological development. In this strive towards rapid development, we, as human beings, are leaving an indelible footprint on the sands of time by our intentional or unintentional deeds which cause an imbalance in the Nature. The deeds of human beings cause direct or indirect impact on flora and fauna on the Earth. The most sufferers, in this regard, are the birds in our vicinity. They are falling prey to many of our modern as well as techno-industrial activities.

Casual approach of the masses has led to further deterioration of environment. It has affected many species. Birds are among the worst victims of the vicious cycle of the Nature. Their depleting numbers have made an intense impact on the Nature immensely.

Taking cognizance of the grim situation and being a socially responsible citizen, Hon'ble Dr. Pravin Charde, Principal, Sevadal Mahila Mahavidyalaya, took a social onus on his own shoulders to bridge the ever widening gap between the Nature and the Mankind and coined an idea of 'Save bird, Save Nature' project. As birds play very major role in our eco-system, it felt necessary to save their presence. Earlier, birds used to hang around the human habitats or houses which was a symbol of harmony between man and the Nature. But their ever depleting numbers are real concern. Pained over the pathetic situation of birds, the National Service Scheme unit of the college initiated the project '**SAVE BIRD SAVE NATURE**' under the guidance of Hon'ble Principal Prof. Pravin Charde.

## THE OBJECTIVES :

- To build bird nests across Nagpur City and nearby areas.
- To feed the birds and make arrangement of water for them.
- To spread awareness among the students about the declining numbers of birds.
- To promote installation of bird nests, feeding pans and water bowls at private residences of citizens.
- To involve students to promote nestling of birds in their vicinity.
- To raise fund from scrap newspapers and used books.

*SSM*

## CONTEXT :

In the era of globalization when everyone is running for scaling high and high, the correlation between nature and mankind is getting blurred.

Casual approach of the masses has led to further deterioration of environment. It has affected many species. Birds are among the worst victims of the vicious cycle of the Nature. Their depleting numbers have made an intense impact on the Nature immensely.

Taking cognizance of the grim situation and being a socially responsible citizen, Hon'ble Dr. Pravin Charde, Principal, Sevadal Mahila Mahavidyalaya, took a social onus on his own shoulders to bridge the ever widening gap between the Nature and the Mankind and coined an idea of 'Save bird, Save Nature' project. As birds play very major role in our eco-system, it felt necessary to save their presence. Earlier, birds used to hang around the human habitats or houses which was a symbol of harmony between man and the Nature. But their ever depleting numbers are real concern. Pained over the pathetic situation of birds, the National Service Scheme unit of the college initiated the project '**SAVE BIRD SAVE NATURE**' under the guidance of Hon'ble Principal Prof. Pravin Charde.

## THE PRACTICE :

For this project, the college generated fund for the project with the collaboration of college NSS unit. Special drive to collect scrap newspapers and used books from the students was initiated and fund was raised for making wooden nests for birds, getting grain, feeding pans and water bowls. Grain feeding pans and water bowls were placed at different places. The drive proved very helpful for the birds.

Under the project 'Save Bird, Save Nature', manmade bird nests have been installed since commencement at various places in University Campus, Gorewada International Park, College Campus, residential city areas, College Hostel, Narsala (2<sup>nd</sup> Premises) and Bahadura village.

## **REPORT ON 'SAVE BIRD SAVE NATURE' PROGRAMME**

**Academic Session : 2017-2018**

In the era of fast development where infrastructure is touching its new height, the nature is losing its presence in a remarkable way. Looking at the worsening plight of the birds and animals, college has been taking constant efforts to save their existence in natural habitat. Taking holistic approach to save birds, college has taken special initiative by initiating Save Bird Programme.

Under the programme Save Bird Save Nature, manmade bird nests have been installed at various places in Raj Bhavan (Official Residence of His Excellency, Governor of Maharashtra), University Campus, Gorewada International Park, College Campus and College Hostel, Narsala (2<sup>nd</sup> Premises).

College didn't stop here only by placing bird nests at various points but also made arrangement to provide feeding grain to them time to time. This year too NSS Unit of College has collected grains from the students and college staff members. On dated 3<sup>rd</sup> Oct, 2017 NSS Unit has organized special programme to collect the grain and distribute it to the feeding spots for the birds. The event marked with the gracious presence of Mr. Jaiswal, District Chairperson, GST as Chief Guest of the function. Prof. Dr. Pravin Charde, Principal Sevadal Mahila Mv, Dr. Sopandeo Pise, Convenor, Save Bird Save Nature, graced the function.

After the function, collected grain sacks were taken to the Raj Bhavan. Dr. Sopandeo Pise, Mr. Sharad Bakhade, Dr. Mrs. S. S. Mandaogade, Mr. Anil Jasud were prominently present on this occasion.

Hon'ble Principal Prof. Dr. Pravin Charde expressed his happiness over the collection and distribution of feeding grains to the birds.

## **REPORT ON 'SAVE BIRD SAVE NATURE' PROGRAMME**

**ACADEMIC SESSION : 2018-2019**

### **BEST PRACTICE OF THE INSTITUTE**

The National Service Scheme unit, under the guidance of Prof. Pravin Charde, Hon'ble Principal, Sevadal Mahila Mahavidyalaya, Nagpur under Sevadal Education Society, Nagpur has initiated 'Artificial Nests for Birds' Project as a measure to pay back the environment in particular and the society in general. As a humanitarian act of kindness towards birds, the NSS unit launched this campaign through a compassionate participation from all the stakeholders of the college such as the teaching, non-teaching staff members and the students. The donors donated newspaper scraps, old practical records, worn out books and glass bottles from the laboratories of the college. The quotations for the purchase of these scrap materials were invited from various scrap vendors and these scrap materials were sold to the respective winning bidder. The fund of Rs. 23610/- was generated under this project. This fund was used to purchase the material for the preparation of artificial nests for birds.

Under the project 'Save Bird Save Nature', manmade bird nests have been installed since commencement at various places in University Campus, Gorewada International Park, College Campus, residential city area, College Hostel, Narsala (2<sup>nd</sup> Premises) and Bahadura village.

After placing bird nests at various points, college generated fund for the project with the collaboration of college NSS unit. Special drive to collect scrap newspapers and used books from the students was initiated and fund was raised for getting grain, feeding pans and water bowls. Grain feeding pans and water bowls were placed at different places. The drive proved very helpful for the birds.

## **Problems Encounters :**

Though 'Save Bird Save Nature' project was initiated with ideal thought and garnered appreciation from all corners of society, it encountered many challenges.

Problems:

### **a) Availability of Fund**

It is the known fact that 'Army marches on its stomach'. Without availability of fund, the whole practice seemed useless. The biggest problem was the paucity of fund. Making artificial nests and feeding pans and water bowl was challenge.

In order to solve the problem, scrap news papers and used notebooks from the Institution, staff and students were collected for free and fund was generated. Through the generated fund, artificial nests, feeding pans and water bowls were installed at various places across the city and adjacent areas.

### **b) Installation**

Post availability of artificial nests, feeding pans and water bowls, the biggest problem was installing them at various places. In order to address the issue, college NSS Unit volunteers were pressed in. With the help of NSS volunteers, artificial nests, feeding pans and water bowls were installed across the city and nearby areas i.e. Narsala and Bahadura.

The National Service Scheme unit of Sevadal Mahila Mahavidyalaya, Nagpur is very grateful to each and every stakeholder and donor for their wholehearted participation in this campaign towards the conservation of flora and fauna in the environment. At last but not the least, the National Service Scheme unit is especially thankful to Hon'ble Prof. Pravin Charde, Principal, Sevadal Mahila Mahavidyalaya, Nagpur.

**REPORT ON 'SAVE BIRD SAVE NATURE' PROGRAMME**  
**BEST PRACTICE OF THE INSTITUTE**  
**ACADEMIC SESSION : 2020-2021**

In the wake of Covid-19 pandemic, College NSS Committee members and volunteer students used social media effectively to share images about spreading awareness about the Corona Virus. Masks and Sanitizers were also distributed among the needy and poor people.

Due to the outbreak of COVID-19 pandemic, the National Service Scheme Unit of the college could not materialize the project, 'Save Bird Save Nature' and 'Artificial Nests for Birds'.

## Bird Restaurent at Rajbhavan

Best Practice No : 2

Title of the practice :

Bird Restaurent at Rajbhavan bio diversity Park (Residence of Government of Maharashtra state) District Nagpur was started on January 2017 to save birds and save nature.

Goal :

1. The idea behind starting the bird restaurant is to save birds as the birds are an integral part of the ecosystem.
2. Birds have helped us to shape the plant life we see around us and around the world.
3. They keep the climate stable , oygenate air and transform pollutants into nutrients.

The context :

The college had started bird restaurant in the Raj Bhavan biodiversity park ( Residence of Government of Maharashtra state ) District Nagpur. The objective of this project is

1. To provide a source of uninterrupted source of food to a maimum number of biesds
2. To make water and food easily accessible and to help maintain the bird population in seasons of food scarcity like the summers and winters.
3. To provide energy to birds such as during temperature extremes , migration and in late winters when natural seed sources are depleted.
4. This practice is of great importance especially in an urban environment where the birds are benefitted from the food they find in the park.

The Practice :

The hon'ble Principal Professor Pravin Charde of the institution has taken the initiative by constituting the committee to start the bird restaurant at Raj Bhavan Nagpur. The convenor is Dr Mrs S.S. Mandavgade and other members are Dr Mrs P. P Chahande, Dr Mrs A.S. Mahakalkar

REPORT ON : BIRD RESTAURENT AT RAJ BHAVAN, NAGPUR

01

Principal  
Sevadal Mahila Mahavidyalaya  
Umroli

and Dr Mrs B. S. Tapase .This is an innovative initiative taken up by these faculty members along with the support of other staff members and students of the college. The activity is carried out by the collection of fund from teaching and non teaching staff members. The members arrange 100 kg of grains every month for this activity and visit the Raj Bhavan Nagpur and donate grains to the authorities present there. These grains are then used to feed the birds like Peacocks, sparrows, parrots and various other types of birds. This activity helps in the sustainability of hundreds of birds, present in the locality around Raj Bhavan which indirectly help in balancing the food and environmental cycles in the region. The feed not only acts as a good source of nutrition to the birds but also to their offspring which raises their chances of survival thus contributing towards maintaining the bird population.

Evidence of success :

1. A positive opinion is received from the staff of Raj Bhavan Biodiversity Park from their feedback.
2. A Letter of appreciation was received from the authority for successfully running the project
3. The number of Birds in Raj Bhavan has increased.
4. Hundreds peacocks and peahens moved into the premises

Problems Faced :

No problems are faced and the activity is running smoothly till date

Nagpur

Subject : Appreciation for Supply of Food Grain for the 'Bird Restaurant'  
at Biodiversity Park, Rajbhavan, Nagpur.

Reference: 1) Letter - SMM/Bird Restaurant/01/16-17 dated 02.02.2017  
2) Letter - SMM/3600/20-21 dated 10.03.2021

Respected Sir,

Apropos to the subject cited above, it is worth to appreciate your unique and praiseworthy initiative to supply mix food grain for the 'Bird Restaurant' at the Biodiversity Park, Rajbhavan, Nagpur. Your special drive to supply every month approximately 150 Kg of food grain has proved far reaching effect on the various dependant species. Finding every reason to mention that since beginning of the project to supply food grain from 2017, till now it has amounted approximately 72 Quintal mix food grains.

Rajbhavan's Biodiversity Park has rich 'Biodiversity' including Nagpur Birds (Honey Buzzard), Maharashtra Birds (Green Pigeon) and abundant National Birds (Peacock). It is worth to mention that your college has already prepared Table Book on the same for Rajbhavan and submitted for the record. With your regular contribution of food grain, the park has never felt crunch of food scarcity, which has resulted in improvement in their breeding. I feel very obliged to mention that your project has significantly helped in substantial growth of numbers of these important species.
