16th September, 2021: World Ozone Day

Sevadal Mahila Mahavidyalaya, Science Association, Co-curricular and Cultural Committee and Alumni Association of the college organized a guest lecture and college level “Poster Competition” on the eve of “World Ozone Day” i.e., 16th September, 2021. The guest lecture was delivered by Dr. Vijaykumar S. Mangle, Assistant Professor & Co-Ordinator, Post Graduate Department of Environmental Science, Arts, Commerce and Science College, Chikhaldara. The theme for this year was “Ozone for Life”. Every year September 16th we celebrate World Ozone Day. Due to COVID-19 pandemic this day was celebrated virtually (<https://meet.google.com/dyq-lqeu-cfk>). The main aim of this lecture was to remind the world about the depletion of the ozone layer and its dangers. The ozone layer of the Earth protects us from the harmful ultraviolet rays of the sun. Unfortunately, our race for maintaining a high quality of life has led to its depletion.

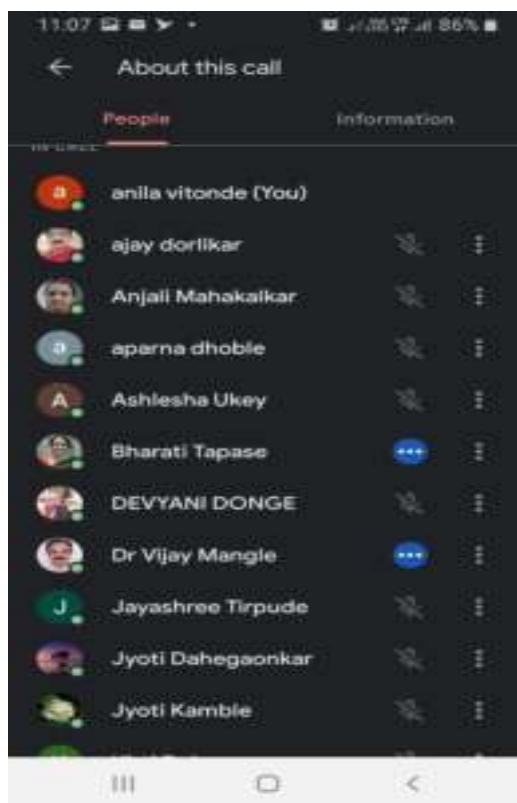

The theme for this year given by the United Nation Environment Program (UNEP) is **Montreal Protocol – keeping us, our food and vaccines cool**. On 1st January 1989 the Montreal Protocol came into force to stop the depletion and reduce the usage of substances that cause holes in our protective blanket. Sustaining the Ozone layer is hence the collective responsibility of all the nations. We are the agents of Environment change. Let’s join hands to preserve life on this planet by protecting Ozone Shield. Let’s take an oath to protect Ozone layer and save earth on World Ozone Day.

8th March, 2019: International Women's Day

International Women's Day is celebrated worldwide on 8th of March to salute women hood and to acknowledge the contribution of women across the globe in building their Nations and with the strong belief that "Empowering Women is Empowering Humanity." This day was celebrated in our College by the Cultural Committee by organizing a Youth Fest on Gender Equality.

The concept behind this youth fest was to make the youths aware about the gender issues and the prejudiced thinking of our society on it. How our family, our friends, our society, our rituals, our customs and whole system is responsible for this gender discrimination and how we at ourself can change this scenario. This Fest helps the individual to understand their role in this gender biased society and how we can be a part of change through day-to-day actions and working. Through various games and stall this concept is being explained and explored in this gender youth fest. We received a great response from youths and all were satisfied after attending the fest. Particularly boys were very happy to attend the fest. They understand the male dominating thought process and patriarchic thinking. It helps them to understand their role in creating gender equality.
