**Letter of Appreciation**

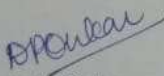

To,  
Dr. Sushil Meshram,  
Head of the Department, Marathi,  
Sewadal Mahila Mahavidyalaya,  
Nagpur.

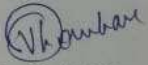

Sir,

We are deeply impressed by your invaluable contribution to “Body Donation Awareness Program” conducted by Department of Anatomy, NKP Salve Institute Medical Sciences & Research Centre and Lata Mangeshkar Hospital, Nagpur. We appreciate your way of explaining the facts in simple & subtle language to nonmedical people for promotion of body donation. Your dedication & support has helped our institute to receive more body donations during the year 2022 for teaching and research purpose.

We sincerely hope that you will continue your excellent work with us in future also.

Thank you so much for your assistance & outstanding contribution to medical field.

Greetings from Varadaan!

Dear Sir,

Varadaan Indian Association for Promotion of Adoption & Child Welfare is a registered Organization working in the field of child development since 1990. Varadaan has placed 473 children in adoption. Varadaan is running welfare services for children in difficult situations.

We express our sincere gratitude for the generous donation (inkind) as per requirement of child care unit from last 17 years.

We appreciate your kind gesture towards our organization. Your support towards our activities gives us motivation & encouragement to work dedicatedly for the cause of the abandoned children.

We solicit your co-operation & support in the future also.

Thanking you.

Sincerely yours,

Mrs. Pallavi Padole

Nagpur

Subject: Appreciation for Supply of Food Grain for the 'Bird Restaurant'  
at Biodiversity Park, Rajbhavan, Nagpur.

Reference: 1) Letter - SMM/Bird Restaurant/01/16-17 dated 02.02.2017  
2) Letter - SMM/3600/20-21 dated 10.03.2021

Respected Sir,

Apropos to the subject cited above, it is worth to appreciate your unique and praiseworthy initiative to supply mix food grain for the 'Bird Restaurant' at the Biodiversity Park, Rajbhavan, Nagpur. Your special drive to supply every month approximately 150 kg of food grain has proved far reaching effect on the various dependant species. Finding every reason to mention that since beginning of the project to supply food grain from 2017, till now it has amounted approximately 72 Quintal mix food grains.

Rajbhavan's Biodiversity Park has rich 'Biodiversity' including *Nagpur Birds* (Honey Buzzard), *Maharashtra Birds* (Green Pigeon) and abundant *National Birds* (Peacock). It is worth to mention that your college has already prepared Table Book on the same for Rajbhavan and submitted for the record. With your regular contribution of food grain, the park has never felt crunch of food scarcity, which has resulted in improvement in their breeding. I feel very obliged to mention that your project has significantly helped in substantial growth of numbers of these important species.

  
Ramesh Yewale  
Officer In-Charge,  
Raj Bhavan, Nagpur

8. **President**, Devta Life Foundation, Nagpur has appreciated the Institute for significant for contribution in blood donation programme.

**TO WHOMSOEVER IT MAY CONCERN**

**Letter of Appreciation**

I, the undersigned, Dr. Avinash Gawande, Superintendent, Government Medical College & Hospital (GMCH), Nagpur is hereby declared that, the patented Mortuary Cabinet by the inventors

1. Dr. Sanjay J. Dhoble, Professor, Department of Physics, R.T.M. Nagpur University, Nagpur;
2. Dr. Nilesh M. Mahajan, Professor, Department of Pharmaceutics Dadasaheb Balpande College of Pharmacy, Nagpur and
3. Dr. Nirupama S. Dhoble, Professor, Department of Chemistry, Sevadal Mahila Mahavidhyalaya, Nagpur

have donated the first unit to us on Tuesday, 25th August 2020 on 12:00 noon at Dean Office, GMC, Nagpur. The unit is really very effective in surface sanitization of wrapped dead bodies of COVID-19 diseased person. It is nicely designed and constructed to make it user friendly to avoid the exposure of UVC light to operators. M/s, Nishad Industries, Additional MIDC, Nandagaon Peth, Amravati has really done exceptional work for transferring the technology and manufacturing the patented Mortuary cabinet. On behalf of entire GMC COVID-19 task force and officials, I congratulate and owe sincere regards and express my deep sense of gratitude towards the inventors and the manufacturer.

Thanks and appreciation to all three inventors for kind support to Government Medical College (GMC), Nagpur.

## 3 from city design unit to sanitize dead body

Vaibhav Ganjapure  
@timesgroup.com

Nagpur: Three researchers led by a Nagpur University professor have come up with an innovative design of a mortuary cabinet for disinfecting Covid-19 bodies using ultra-violet (UV) radiation so as to eliminate the risk of infection to handlers like health workers and family members.

According to them, this would help in removing the fears in the minds of family members and health workers while touching the bodies and last rites could be performed properly without any stigma. With the number of

Researchers say it will help in carrying out last rites of deceased without fear

Covid deaths increasing rapidly in the city, the mortuary box would help in proper disposal of the bodies.

► Donated to GMCH, P 4

## First body sanitizer unit donated to GMCH

► Continued from P 1

This newly prepared body sanitizer unit is made of stainless steel and equipped with UVC lamps having 200 nm to 280 nm wavelength. A body can be sanitized after switching on the UVC lights for 15 minutes, eliminating SARS-CoV-2 virus. This will end the social stigma associated with the Covid bodies, as many don't even perform last rites of their loved ones out of fear," said Sanjay Dhole, professor in NU's department of physics.

Professor in Dadasaheb Balpande College of Pharmacy Niles Mahajan and lecturer with Sevadal Mahila Mahavidyalaya Nirupama Dhole are the other team members which designed the sanitizer unit.

According to the trio, it is a challenging task for health workers to handle Covid bod-

Niles Mahajan (from left), S Dhole and Nirupama Dhole

ies. "All Covid-19 bodies are potentially infectious. Most likely violations are not wearing a mask, gloves or not taking proper safety measures. It's very difficult to educate people or make them aware of proper precautionary measures," they said.

The sanitizer unit has been patented. Researchers have transferred this technology to Nishad Industries situated in MIDC at Nandgaonpeth in Amravati to manufacture the mortuary cabinet.

The trio donated the first unit to GMCH in the presence of Nagpur University VC Subhash Chaudhary and dean Dr Sajal Mitra.

Nagpur City Line | 2020-09-01 | Page-3

## Researchers develop novel UV mortuary cabinet

■ Principal Correspondent

THERE are several potential threats of accidental contamination to healthcare workers and other patients and family members receiving the dead body of COVID-19 patient. Even though, standard disinfectants are effective against SARS-CoV-2 but manual disinfection may leave some unexposed area where virus can harbour. Considering all these issues, city-based researchers have come up with novel Ultra Violet (UV) light-based mortuary cabinet that has removed the loopholes.

Dr Sanjay Dhole, Professor of Post Graduate Department of Physics in Rashtrasant Tukadoji Maharaj Nagpur University (RTMNU) said, "To avoid the error and extra level of protection UV light can be used to disinfect body surfaces or wrappings. Several studies demonstrated the capability of UV light in destroying viruses, bacteria and fungi. Several family members of SARS-CoV-2 virus have been tested for their susceptibility against UV light. It was concluded that all are highly susceptible to

Dr Sanjay J Dhole

Dr Niles Mahajan

Dr Nirupama S Dhole

UV inactivation."

Based on these findings mentioned in the prior arts, innovators Dr Sanjay J Dhole, Dr Niles Mahajan, Professor, Dadasaheb Balpande College of Pharmacy and Dr Nirupama S Dhole, Department of Chemistry, Sevadal Mahila Mahavidyalaya have logically come up with very innovative design of mortuary cabinet. They proposed the mortuary cabinet for disinfection of COVID-19 dead bodies using UV radiation so that it can be handled safely over by health caregivers and family members.

Dr Dhole informed 'The Hitavada', "This newly-prepared body sanitizer unit is constructed in stainless steel and equipped

with UVC lamp having 200 nm to 280 nm wavelength. UV lights are fixed on upper and lower side of the cabinet. These lamps are door operated so as to avoid the outside exposure. In this structure a fine net stand stretcher is fixed at for placing the dead body. An On/ Off switch with indicator is provided at the front panel and AC power adapter is provided on the right side of the box. A body can be sanitised after switching on the lights

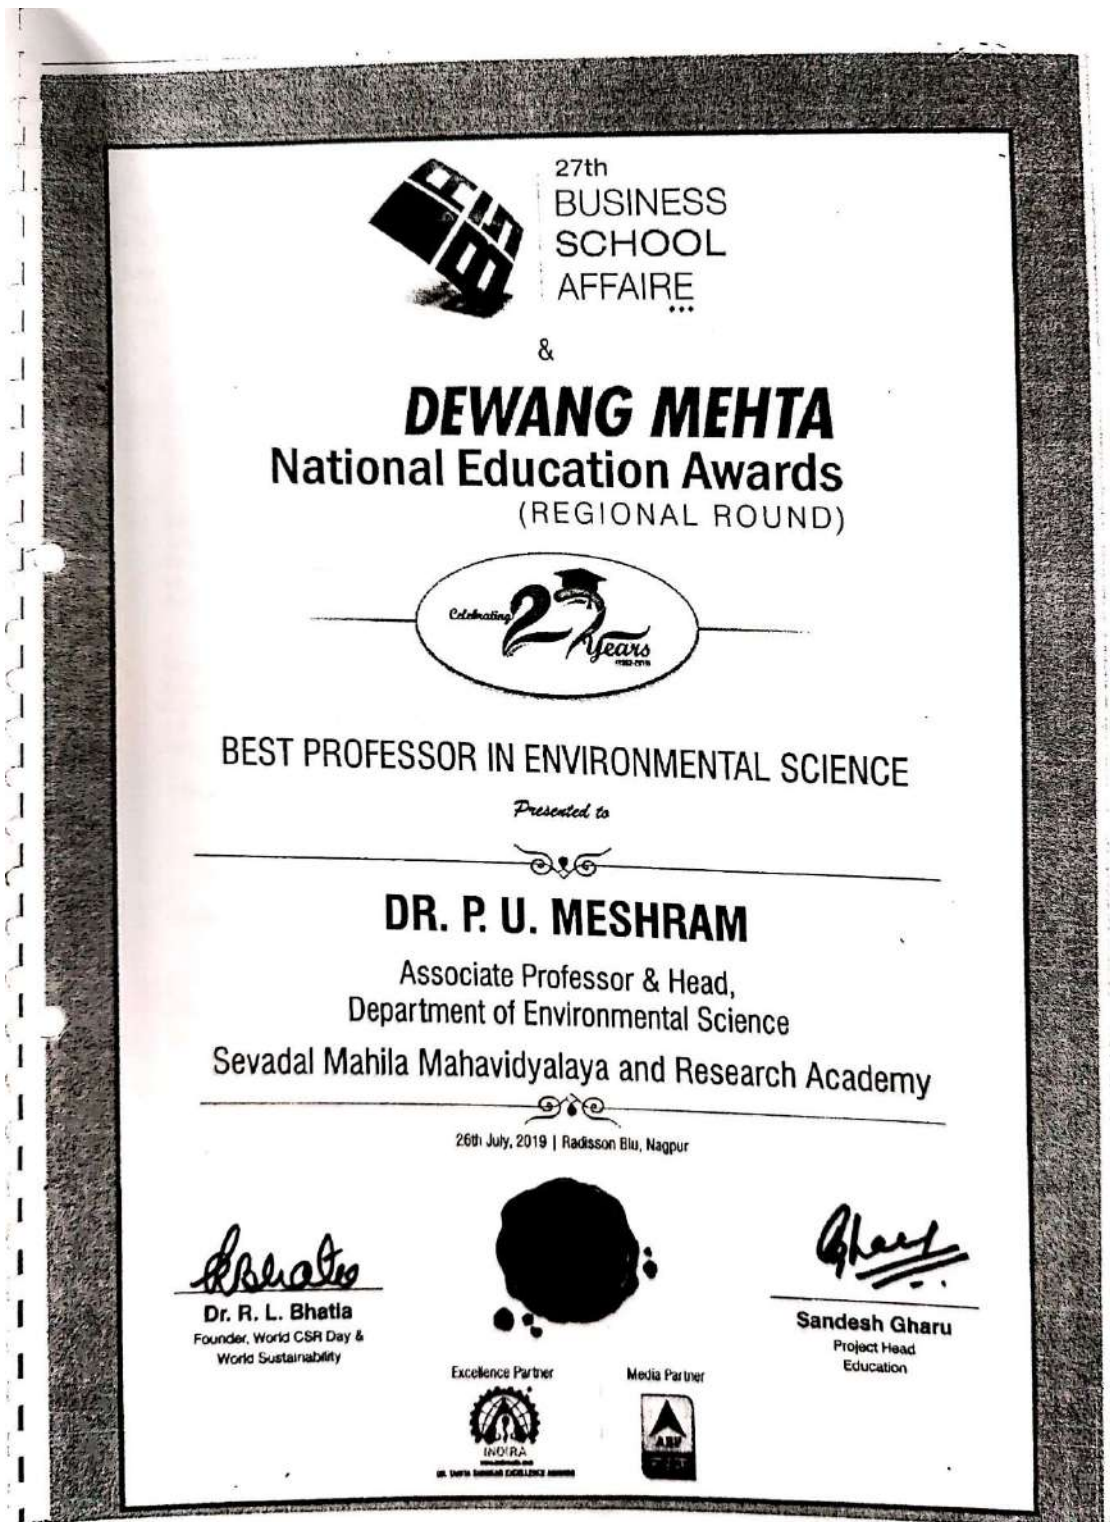

when right-ly placed at stand in 15 minutes and can irradiate SARS-CoV-2 virus." This device has been patented during lockdown period and it is already published in the public domain. Inventors have transferred this technology and prepared this cabinet with the help of M/s Nishad Industries, situated at MIDC, Nandgaon Peth, Amravati. As the

innovators earlier discussed the basic objectives and idea with Dr Avinash Gawande, Medical Superintendent at Government Medical College and Hospital (GMCH), he was proactive to bring this in a reality. It is because of his initiative, the innovators were able to donate the first unit at GMCH. The official handover and demo programme was conducted recently and it was unveiled by the hands of Dr Subhash Chaudhary, Vice-Chancellor, RTMNU; Dr Sajal Mitra, Dean, GMCH; Manoj Balpande, President of Ambe Durga Education Society; Praveen Charde, Principal, Sevadal Mahila Mahavidyalaya and Dr Avinash Gawande.

This cabinet is prepared by RTMNU and affiliated colleges Dadasaheb Balpande College of Pharmacy and Sevadal Mahila Mahavidyalaya. Dr Sajal Mitra suggested for the testing of efficacy of this cabinet against the SARS-CoV-2 on the surface of COVID-19 diseased person's dead body wrapped in polybag. Dr Avinash Gawande expressed views regarding the usefulness of this mortuary cabinet.

14. Sandvik Asia Pvt. Ltd., Pune has awarded the Sandvik India Gender Award to the Institute for the contribution in gender equality and imparting education to girls from economically backward community of Sub-urban and rural region of Nagpur

## SANDVIK INDIA GENDER AWARDS 2018

### FINALIST

AWARD CATEGORY: ACADEMIA

**Dr. Kirti Dubey**

Assistant Professor,  
Sevadal Mahila Mahavidyalaya , Nagpur, Maharashtra

The academic institution strives to impart education to girls from economically backward community of sub-urban and rural regions in Nagpur. The institute provides comprehensive education in one location, from Kindergarten upto PhD. Providing an interdisciplinary academic program in their local language at a nominal cost makes it easier for girls to continue their education. This leads them to an array of job opportunities, financial independence and empowerment.

JOINT PARTNERS

KNOWLEDGE PARTNER

Recipient of **Sandvik India Gender Awards -2018** under Academia category and received Rs. 500,000/- for a project on *“Holistic Approach of an Academia Imparting Garment Construction and Embroidery Skill Developmental and Health Benefits to Women of Economically Weaker Section of the Society”*

15. Short film competition was organized by Charkha development communication and Unicef, Mumbai. The theme for the competition was child abuse, girl abuse and its effect on society. Sevadal Mahila Mahavidyalaya participated in the said competition at Xavier Institute of Mahapalika Marg, Mumbai. The short film that was made by our students was 'Dupatta' based on gender discrimination in our society. Our short film received third State level prize. Following students prepared the short film : Ms. Uktika Panbude, Ms. Dhanshree Gaidhane, Divya Dehankar, Komal Bachhil, Mayuri Khadatkar and Ms. Dipali Wasnik all from B.Sc. III.

Subject:- Voluntary Blood Donation Camp Organized by your Organization,

Respected Sir/Madam,

We Sincerely thank you for arranging a voluntary blood donation camp on 14/08/2016 a total 31 of voluntary donors donated blood in this camp. We were extremely pleased with the arrangement & co-operation extended to us by the members of staff of your organization.

We look forward to similar co-operation from you & your organization in future also and hope that you would organize this activity every year.

We assure you that we will offer our best service when the members of your organization and their families require blood. We further bring to your knowledge that we are supporting Thalassemia/Hemophilia children every month by providing them free blood units which is possible due to your co-operation.

Thanking You.
