SYLLABUS
ADVANCED DIPLOMA IN TEXTILE DESIGNING

INTRODUCTION

Present scenario in Textile Industry presents good opportunities for Textile designer have good employment and job satisfaction. India has a long tradition of Textile especially in creative designs and Textile designing is highly creative job. A good understanding of woven structure makes it possible to apply them in creating various designs. TEXTILE Designer must have sense of fabric and knowledge of different suitable appropriate material. Textile designer must develop skill and gain experience to produce surface design and coloration which are used in dress fabric, furnishing and other textile usages.

RATIONAL

The students of Advanced Diploma in Textile Design are supposed to have knowledge and skills regarding various advanced techniques of textile field.

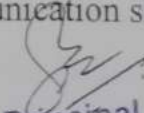

Objectives:

1. To understand recent advances in various types of Fibers, Yarn and Fabric.
2. To understand and acquire skills in evaluating designs available in market and creating designs using software.
3. To identify various quality aspect in various processes.
4. To understand working of modern machines in various production stages.
5. To understand the modern techniques and methods of recent trends in textile industries.

SKILLS TO BE PROVIDED

6. To develop drawing, designing ability on graph sheets.
7. Preparation of warp and weft along with drafting & denting techniques.
8. Dyeing and printing techniques in laboratory level.
9. Uses of computer software for studying and creating designs.
10. Essential understanding about costing, communication skills and project work.

WORK AS TEXTILE DESIGNER

OBJECTIVES-

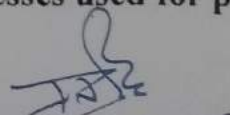

The students of textile design are supposed to have knowledge and skill regarding various

advanced weaves and their construction. Hence, in this subject, students will learn different weaves, their method of employment to acquire competency for production of woven design

A student of textile design must have sufficient knowledge and skills about principles of dyeing operation, equipment and processes. He should be able to execute

various recipes for dyeing.

A student of textile design must have enough knowledge about principles and practices employed for printing. He must be aware of various operation, materials, equipments and processes used for printing.

SYLLABUS
ADVANCED DIPLOMA IN TEXTILE DESIGNING

INTRODUCTION

Present scenario in Textile Industry presents good opportunities for Textile designer have good employment and job satisfaction. India has a long tradition of Textile especially in creative designs and Textile designing is highly creative job. A good understanding of woven structure makes it possible to apply them in creating various designs. TEXTILE Designer must have sense of fabric and knowledge of different suitable appropriate material. Textile designer must develop skill and gain experience to produce surface design and coloration which are used in dress fabric, furnishing and other textile usages.

RATIONAL

The students of Advanced Diploma in Textile Design are supposed to have knowledge and skills regarding various advanced techniques of textile field.

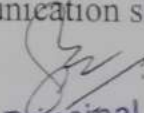

Objectives:

1. To understand recent advances in various types of Fibers, Yarn and Fabric.
2. To understand and acquire skills in evaluating designs available in market and creating designs using software.
3. To identify various quality aspect in various processes.
4. To understand working of modern machines in various production stages.
5. To understand the modern techniques and methods of recent trends in textile industries.

SKILLS TO BE PROVIDED

6. To develop drawing, designing ability on graph sheets.
7. Preparation of warp and weft along with drafting & denting techniques.
8. Dyeing and printing techniques in laboratory level.
9. Uses of computer software for studying and creating designs.
10. Essential understanding about costing, communication skills and project work.

OBJECTIVES-

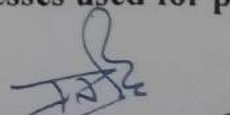

The students of textile design are supposed to have knowledge and skill regarding various

advanced weaves and their construction. Hence, in this subject, students will learn different weaves, their method of employment to acquire competency for production of woven design

A student of textile design must have sufficient knowledge and skills about principles of dyeing operation, equipment and processes. He should be able to execute

various recipes for dyeing.

A student of textile design must have enough knowledge about principles and practices employed for printing. He must be aware of various operation, materials, equipments and processes used for printing.
